

EARN REBATES & INCENTIVES WITH EVERYDAY TRANSACTIONS - MEMBER EXCLUSIVE

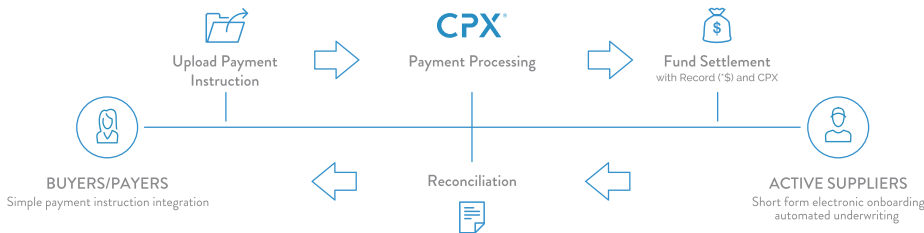

Automated Integrated Payables

Imagine a scenario where your enterprise could generate revenue from its everyday business transactions. Take that a step further and add the ability to reduce costs, improve purchasing controls AND maximize working capital. Sound too good to be true? It's actually the way leading organizations manage their payments with the help of Priority's integrated payables platform.

THE CPX® SOLUTION: STREAMLINED PAYABLES

How it Works

CPX, Priority's B2B payments platform, streamlines the integrated payables process by providing a comprehensive, end-to-end solution that automates and produces rebates and incentives from interchange and processing fees that are shared with your organization.

Platform Implementation

Harnessing the power of Priority CPX requires no changes to existing processes. Through one, easy-to-implement payment instruction connection, Priority's experienced activation team can put the tools in place to automate your payments and generate working capital while improving your relationships with suppliers.

Simple

A single payment instruction informs all supplier payment types (card, ACH, check)

Turnkey

Our experienced, in-house sales team drives supplier adoption and income

Powerful

The platform offers a robust feature set with customizable business rules
