

Simplify Fintech Infrastructure with *Unified* Banking & Treasury Services

Connect payments, compliance, and banking to launch faster and scale more securely with Priority Commerce's Banking & Treasury platform, Passport.

CONNECTIVITY

- Launch financial products faster without stitching together multiple providers
- Integrate banking, payments, and treasury capabilities through a unified, API-first platform
- Adapt and scale your infrastructure without rebuilding as your business grows

COMPLIANCE

- Capture and verify user and business data with built-in KYC and KYB workflows
- Monitor transactions and flag risk with integrated AML and fraud controls
- Maintain the records and controls needed to support sponsor bank and regulatory compliance

CASH MANAGEMENT

- Track fund flows at the transaction level, including balances, allocations, and movement across accounts
- Move money across users, partners, and payment rails with support for ACH, wires, and real-time payments
- Simplify reconciliation with clear, centralized records across all transactions
